

ABC Poem

American Revolution

Began in Seventeen Seventy-five in

Concord, Massachusetts

Death occurred and many died

Ending led to birth

Followed by a new nation

Gathering British and Americans

Hearing about the new sensation

Independence of 13 colonies in the U.S.

Just Great Britain had to see

Killings resulted over this because the U.S.

Lacked an organized Army or Navy

Massachusetts was the center

Not of peace but of war

Out broke conflict because

Protests started and taxes soared

Questions rose about taxes

Related to their consent

Shortly there after

Taxes ensued and out of shape people went.

Under the Declaration of Independence

Victory and Freedom was declared

Washington (George) was in a position, and

X-ray vision he must have had to wear

Yesterday is gone, but brings hope for tomorrow

Zero tolerance we may just have to borrow.
